RAIN, RAIN .- On last Thursday, we were of windows, blowing down of fences, and blessing.

GAZINE, (published monthly by A. Jones & to the counsel of the Commonwealth, and Co., 1, 3, 5 and 7, Spruce St., New York. also in Boston and Philadelphia) has been sent to us. It is large and neatly printed, and contains a number of well written articles, tales, &c. We of course, should not agree with its publishers in their views of the present administration; but in this, they have a right to their own opinion and we to ours. The Magazine as a whole, is a well conducted and valuable journal. It is furnished to subscribers at \$1,00 yer year.

We have received a catalogue of the arrangements, committees, premiums, &c. of the National Exhibition of Cattle to be held by the U.S. Agricultural Society at Springfield Ohio, on the 25th, 26th and 27th days of October 1854. Six thousand dollars worth of premiums are to be distributed among the competitors. It is intended to be indeed a national Fair. The circulars all foreign Bank Notes of a less denominaissued by the Society invites the friends of Agriculture from all the States in the Union to attend it, and contribute so far as possible to the interest of the occasion.

BANK FAILURES .- From a Bulletin issued from Dye's Banking House, Cincinnati; we learn that the following banks have recently failed or are at least doubtful: Parmers' and Mechanics' Bunk of Kent

The Small Note Law.

The Cleveland Herald, is in favor of enforcing the provisions of the small note law. Some of its views are as orthodox as the law allows a Whig paper to entertain.

It savs: ALSENS WHENCHIN "One of the evils of a paper currency is the unduc circulation of small bills, the flooding of the country with foreign notes, so that they enter into all retail and minute trade. If a plan can be devised to substitute for these bills, specie and Ohio notes, a great good will be accomplished, and much to that class who can ill afford to stand a shave or suffer a loss."

Dick who was hung at Dayton, Ohio, the other day, was inclined to have no faith in any religion but the Catholic, yet he was visited occasionally by Protestant ministers. About a week before he was hung, he was asked by one of these gentlemen, a worthy and talented man—"Have you any objection to my praying with you !" "I guess not," said Dick, "every little helps."

Mn. Gnav: -In remarking upon the fail-ure of this Company, you say in your paper And others, Dealers in the respective articles of yesterday:
"The effect of this failure will be had tending to bring discredit on responsible in-

It has been known to most Insurance men for years that the affairs of this Company were in a very bad state, and to such the failure causes no surprise. It ought to have failure causes no surprise. It ought to have failed years ago. The Protection and Ætna Companies of Hartford are among the oldest in the Union. Their capitals were originally the same. Their agencies are usually in the hands of the same persons, and their policies oftner than otherwise cover the same risk jointly. The Protection Company have failed mainly because their business, extending from Maine to Georgia, and embracing all classes of risks on land and on the ocean, on river and lake, has been too much extended. They could not control and overlook the details as a company should, which expects to do a safe business. Every tempeat on the water, and every sweeping fire on the land, was sure to bring them in for a large amount of loss. Another fact worthy of note is their capital was insufficient for so large a business. It is probable that within the last ten years they have had at no time less than three hundred millions (!!) at risk.— mut What wonder then that such a Company of should fail after a succession of large fires through the country; yet the late fires have not broke the Protection Company, but their late large losses, added to the stringency of the money market, has rendered the pay-ment of all old claims hopeless. I do not think that this failure should in the least discredit offices that confine their business to reasonable limits, and which do not assume Mrs. Alvah Udait, Mrs. Wm. Coolman and a larger amount of risks than the size of their cepital will warrant.

The Corn Crop.

In the counties of Marion, Logan, Champaign and part of Clark, the corn crop is by ar the best we have seen this season, and will, we judge, be much more than half a crop. In Crawford county, Judge MUSGRAVE informs us the corn crop is excellent, and the clover seed crop a little better. We saw some gentleman from Scioto county, who say that many fields of corn in that region, will be a full average. On the whole, the corn crop of Ohio is better than we supposed. Many of the Scioto Valley, and North Western Ohio Farmers will have full crops. Corn and fodder will be fed economically and sparingly, the coming winter, and the stock will "get through" well, and there will be next spring a large surplus of feed on hand. Unless the signs which farmers have formerly regarded as reliable, fail, the coming winter will be one of the most pleasant we have had for years. If this be so, those who are short of pasture ought not to neglect to sow plenty of rye.—Ohio Far-

Superintendent of the Lunatic Asylum at Cleveland.

We are glad to hear that Dr. LEANDER FIRESTONE, of Wayne county, has received the appointment of Superintendent of the new Lunatic Asylum at Cleveland. An appointment more deservedly popular could not have been made. As a physician, few men in the State occupy a higher rank in their profession than Dr. FIRESTONE. He is just the man to organize the new Institution, and place it upon a basis that will meet the expectations of the people of the State. -Exchange.

One of the most fiendish acts we have ever read is recorded in the Rowan [N. C.] Whig. In Cabarrus county, last week, a man by the name of Holbrooks hung his own son. He had sent the boy to a neighbor's to procure something to eat, and the boy returned without it. Holbrooks then sent him back, and threatened that if he re turned again without it he would hang him. The boy returned as before, whereupon his father took him out to a tree and hanged him. Holbrooks then fled, but has been apprehended.

The English Crops.

We have conversed with a friend who has just returned from a tour through England, Also to return at the same time to the Pro-Scotland and Ireland. He says in the United Kingdom it is estimated, that the crop will average fifty per cent. more than last year. and twenty-five per cent. more than was ever harvested before. It is all well secured and the people are exceedingly rejoiced. This will save hundreds of millions of imported breadstuffs, and the money rates of interests it is confidently expected will come down to three per cent. unless the war continues .- Plain Dealer.

KEEP YOUR SONS EMPLOYED .- Let play be but their occasional privilege, and the will enjoy it far more highly. Employ then in the garden, if you have one, as work is not play. Give them daily and regular du-ties about the house. It will do them no harm to perform humble services. It will help you and help them still more to have them bring wood or coal, to scour the knives. to make their own beds, to keep their own room in order.

PARALVSIS.

Many enquirerr being made conserning this formidable disease, we select for the present report a letter from ann old and well known citizen of Portoge county, Ohio. It was written in Docember 1850.

In a few instances since remedice have been temporarily resorted to, by which he has not only retained comfortable health and powers of endurance, but the far escaped all further attacks of Paralysis:

Dr. Tunns:—Having employed your treatment for some time, I send sou the result, which you are at ilb rity to publish for the benefit of others. I was taken a ricek of Paralysis in February, 1848. It only affected my awm and voice at first, but the pain in my arm which followed the shock become more severe, and extended ever my system. After the shock I was still able to walk, but had little strength; and my limbs were weak and numb. I advised with several physicians, some recommended calomet, but was not relieved. My general health was very poor when I applied to you, in January, and though yov gave me very little encouragement at the time, I obtained medicine and commenced its use, For the first two weeks I folt aligntly worse, after that, improvement commenced, and has continued until I am able to labor most of the time. I now feel like a new man.

THE AUTHOR OF THE "PIRATE DOCTOR," THE "LA" VER'S STORY," THE "OLD DOCTOR," &c., &c. THE success hitherto enjoyed by the author of the above popular works is a sufficient guarantee of the favor with which any productions coming from his pen will be received by the public. "The Cabin Boy's Story" is a romantic narrative, illustrating the horrors of the Slave Trade, as carried on in the Coast of Africa. The author has served in the navy—and the descriptions and characters are painted from personal acquaintance with thom. The story is full of exciting interest and naventure as the celebrated work of Befoe, "Robinson Crusoe," and has the advantage over that glorious fiction, lnasmuch as it is founded on facts of every day, occurrence. The history of the heroine of the Story, Zuleika, the Circassian Slave, purchased at Constantinople, educated and married by the reckless, yet chivalric, Seymour—the commander of the Albatross, is simply the harration of a fact painted from the life, and all the numerous characters portrayed throughout the story are vividiy and graphically drawn.

The publishers have already received orders for the whole of the edition it was originally their intention to publish; consequently, they have been obliged largely to increase it; and they respectfully request that all orders may be sent in immediately.

They confidently expect that the work will create as much interest as any world of fection that has of late years cumanted from the press, as, notwithstanding, since the publication of "Uncle Tom's Cablin," works relating to slavery in America, rgo and cos, have been numerous, none have appeared having relation to the system of purchasing slaves on the African Const, will ten by one who has witnessed it in all its hideous deformity. The work is written in chaste and purchanguage, and will be a welcome and instructive addition to the family library. THE success hitherto enjoyed by the au-

dition to the family library.

The work will form a beautiful octave volume of 400

ges, handsomely illustrated with fine ongravings, and ggantly bound in cloth. Price, in cloth, one dollar, paper, 75 cents, at which rates copies will be sent by publishers to any part of the country, free of postnge.
